CHRISTMAS TREES & ACCESSORIES

Cinco Express stands have push-pull ratchet mechanisms that make setup and take-down easier than ever. Made from virgin, high-impact polypropylene assures durability and reliability and plastic handles and steel end-caps round off the package. With a low, wide, and generous water holding reservoir, the model accommodates low branches and keeps the tree fresh. Steel spikes to the center of the reservoir anchor the tree safely, prevent shift, and make setup a snap. Reinforced holes on the outer edge of the stand allow attachment to plywood if extended stability is needed when used with an extra-large tree. Spill guard prevents over-filling mishaps. Made in the USA.
